

# Forensic Operator

**Start Date: 10/31/2017**

**End Date: 11/2/2017**

Forensic Restoration Operator Course

Bio-Cleaning for the 21st Century

This structured three-day course is the first one to utilize the Restoration Industry Association (RIA) Forensic Guidelines as the core of the training information. Each registrant will receive RIA Guidelines for Professional Forensic Restoration (a \$125 value ) and Wonder Makers&rsquo; textbook Forensic Restoration: Procedures to Protect Operators and Occupant (a \$135 value ).

The jam packed schedule is heavy on hands-on training covering a wide array of topics. Provides participants with:

The OSHA required respirator fit test (bring your own respirator)  
Forensic Operator Certificate  
Bloodborne Pathogen certificate

Topics and activities included in this course:

An overview of the RIA Forensic Guideline  
Crime and trauma  
Unattended death  
Hoarding  
Unsanitary dwelling  
Illicit drug labs  
Infectious disease  
Contamination from animals  
Bio-terrorism  
Tear gas/CS gas/irritants

Also included:

Pre-project organization, site assessment and set-up of decons, work practices, chemicals, waste, post-project evaluation and more.
