

# WONDER MAKERS ENVIRONMENTAL

DECEMBER 2014 E-NEWSLETTER

## Holiday Greetings

The team at Wonder Makers Environmental sends season's greetings to all of you, as well as best wishes for a safe, healthy, and joyful holiday season.

## CMP Course + Sunshine and Warmth

For all those Mold Remediation Specialists who were too busy to attend the Certified Mold Professional course in October, RIA is offering a class in West Palm Beach in February (see class schedule on this newsletter). Make it a New Year's resolution and make it happen. Now is the time to submit your application since this is an advanced course and there are requirements to be met before the class dates. Contact us for more details.

## Have You Renewed Your RRP Training?

If it has been five years since you took the initial EPA Lead RRP class, you need a refresher to renew your certificate. Wonder Makers will offer an initial RRP in Kalamazoo on Thursday, January 8, 2015, from 8:00 a.m. to 5:00 p.m. This 8-hour class will qualify you for an initial RRP certificate. There is so much information that needs to be covered that we are confident you will go away from the class knowing your valuable time was well spent. And your registration fee includes a delicious lunch!

## Q and A

**Q:** What is the latest on how to clean up Ebola contamination?

**A:** The Environmental Council has prepared an Ebola Update for the Restoration Industry. Contact the Restoration Industry Association (RIA) for a copy.

## Do You Know?

Have you ever heard the story behind Wonder Makers? Encore magazine recently published an article about us that includes our origin and history. [Click here](#) for the Wonder Makers legend.

## Michael Pinto Goes Undercover

Michael has added sleuthing to his long list of skills. He recently worked with a news group to investigate allegations of contaminated lemons in the Kalamazoo metropolis. [Click here](#) to see their shocking findings!
