

WONDER MAKERS ENVIRONMENTAL

JANUARY 2016 E-NEWSLETTER

FAQs About the Cleaning of Reservoirs: Whole Structure Cleaning

The number of calls we receive at Wonder Makers Environmental from individuals who feel that their health has been compromised by exposure to mold continues to grow. In fact, the number of those cases has doubled every year for the past three years. Based on our experience with these hundreds of cases we have presented a number of instructive webinars, which were recorded and are available online. Access to the recorded webinars is available (for small fee) at Esporta.ca/MoldWebinarSeries.

In connection with these webinars and our mold remediation/sensitized individual training classes, we have prepared another educational resource: answers to frequently asked questions. In this newsletter we continue with our fourth excerpt from the most frequently asked questions (FAQs), this time dealing with cleaning reservoirs of mold contamination [FAQs About Structure Cleaning](#). Feel free to contact us at Wonder Makers if you want electronic copies of the earlier FAQs.

Did You Know?

There are new regulations that apply to mold remediation contractors who work in the State of New York. Wonder Makers Environmental is an approved training provider for the Mold Remediation Contractor course. If you would like to offer a class for your team, please call our office (269-382-4154) or register for one of the public classes. Class schedule and registration.

Wonder Makers Environmental Products

Wonder Makers' products are offered through distributors throughout North America. We offer a big thank you to our hard-working distributors. Please contact them to renew your supply of asbestos bulk samplers, sampling pumps, acetone vaporizers, plus much more. Click here for a list of our distributors.

Training Opportunities

This year Wonder Makers is offering the preparatory classes for the RIA's Certified Mold Professional (CMP) designation in locations throughout the United States. Register now for the pre-requisite courses: Mold Remediation Technician and Mold Remediation Supervisor courses.
