

## Wonder Air Rental

Find out what's in the air  
you breathe

▶ An easy-to-use, do-it-yourself air sampler with complete instructions. Especially useful for homeowners.

▶ Laboratory analysis of samples (two are included in cost) tells what types of mold spores are in the air and how many there are. Particulates and pollen are also quantified.

▶ An understandable explanation of analysis data included in report.

▶ Fool-proof collection of two samples (indoor and out-of-doors comparison).

▶ Timed to run 10 minutes then automatically shuts off.

▶ Wonder Air can be shipped or picked up.
