Wonder Air

Product #90

Easy-to-use air sampler for mold spores, particulates, and pollen

Collects two samples simultaneously (indoor and out-of-doors comparison) or single samples.

Flow rate of 15 liters of air per minute. Runs 10 minutes with auto shut-off.

Uses Air-O-Cell cassettes (sold separately) to collect non-cultured biological air samples.

Can be used to collect Microvacuum surface samples.

Sample analysis and interpretation of data available. Same day, 24-hour, 4-day, or 7-day turnaround options.

Quantity discount program offered for prepaid sampling cassettes and analysis.
