

WONDER MAKERS ENVIRONMENTAL

AUGUST 2012 E-NEWSLETTER

Not Gone and Not Forgotten

Wonder Makers specializes in dealing with situations associated with the indoor environment: mold, infectious agents, lead dust hazards, etc. But, the physical dangers of asbestos materials, the financial risks from violations of multiple overlapping asbestos regulations, wide-ranging misunderstanding of those regulations, and sparse publicity in recent years about asbestos all combine to make this particular indoor environmental hazard especially dangerous.

Read more in the article on our website - **Asbestos: Not Gone & Not Forgotten @ www.wondermakers.com/Education/Articles.aspx**

Public and private schools are required to follow a path through a thicket of overlapping government regulations related to asbestos. This case study illustrates one school facing this challenge, and how costly doing the right thing the wrong way can be.

Did You Know?

Michael Pinto has joined the IAQA Board of Directors. This is a volunteer position with a three-year term, and provides yet another opportunity for Wonder Makers to give back to the industry, as well as participate in its advancement.

Featured Product

**Asbestos Bulk Sampler with Carrying Case –
The safest, most efficient way to collect bulk samples.
\$285.00**

Includes: Rugged carrying case with fold-down handle and positive grip latch, two handles, two plungers and 100 cutter sleeves in clear, slim vials with caps. Removable cutter eliminates field decon and cross contamination problems. Small bore reduces fiber release for safer sampling. Double-length cutters available for extra-deep samples. Optional power driver encourages full depth sampling for increased accuracy.
